## **2.Trina Solar Ltd.**

Founded in 1997, Trina Solar Ltd Co. (“Trina Solar”) is the world's leading total solution provider for solar energy. The total module shipments of Trina Solar has so far exceeded 21 GW, which contributes more than 10% share of the global PV market and makes the Company the world largest PV module supplier. Driven by R&D, the Company has launched smart modules, smart systems, energy storage, smart O&M and other solar solutions. In the Company' s downstream business, Trina Solar provides project development, financing, design, construction, O&M, and one-stop system integration solutions for customers.

In 2016, the Company has been granted a Silver Recognition Level in the Corporate Social Responsibility (CSR) performance survey conducted by Eco Vadis, an independent rating agency in Europe, for the Company' s notable improvements in two themes: environmental and labor practices.

The Trina Solar State Key Laboratory of PV Science and Technology, which is accredited by the Ministry of Science and Technology of China, provides the Company with a platform for cooperation with the world' s leading R&D and accreditation and testing organizations. The company has filed over 1000 patents, far ahead of its Chinese peers, and leads the way in setting

international standards. Trina Solar has become a true solar industry innovator and standard maker.

The laboratory so far has broken 16 world records in PV cell and module efficiency and output. From its regional headquarters in Zurich, San Jose, and Singapore and offices in Tokyo, Madrid, Milan, Sydney, Beijing, Shanghai, and various other cities, the Company now distributes its PV products to over 60 countries all over the world. In 2015, as Trina Solar continued to grow its sales in the global market, the Company also strategically broadened its geographic manufacturing footprint. Manufacturing facilities in Thailand, Malaysia, Vietnam, and the Netherland now help to shorten the distance between the Company and its customers.
