

Y2LA

CRAFT CIDER

no sulfites added

no refined sugar

gluten free

proudly crafted in UKRAINE

About us

We are a small boutique cider producer rooted in Ukraine, bubbling with a fresh ideas. With fascination for aesthetics and hedonism we have crafted a cider that provides pleasure for your mouth and eyes. It has been a long journey of research, experiments and passionate work.

YSLA Craft Cider is the perfect blend of updated millenary winemaking traditions and some apple varieties that balance tannins, acidity and sugar to complement our yeast's own characteristics.

We are mostly use the tastiest apples, fresh from the tree, lovingly grown in our own 100 hectare orchard located in the most environmentally clean area of Ukraine called Vinnytschyna.

YSLA craft cider

YSLA is produced entirely with natural ingredients, best possible wine practices and modern equipment that helps to avoid oxidation. This provides perfectly controlled fermentation conditions and allows aseptic bottle filling conditions.

**We can proudly label our
cider as craft made with
no sulfites,
no refined sugar added
and gluten free**

These and many other solutions employed at the cidery allow us to avoid adding headache provoking sulfites and taste worsening pasteurization.

ORIGINAL APPLE

Original apple

semi - dry cider

6,5% vol

330ml

The original apple cider is dry and tart with a gently tannic finish. This is a very drinkable, pleasant, and refreshing drink with a delicate aroma of apples, while the taste of crisp fruit lingers on the tongue.
