BEAUTIFUL RIDE

Stigo is the world's fastest-folding electric scooter

Stigo was developed in response to the need expressed by many urban commuters for an electric bicycle or scooter.

However, there was always the problem of where to store the vehicle. It is not that easy to take a bicycle into a city apartment or find a place on the street to charge your electric scooter.

The Stigo solution is really simple – it folds into a wheeled suitcase-type package you can bring along anywhere and charge from a regular outlet.

GET YOUR STIGO

- Speeds up to 25 km/h
- Weighs 13.5 kg
- Folds up in 2 seconds with footprint a mere 45x40 cm
- 250W hub motor
- 36V Lithium-Ion battery
- Drives up to 30 km with a single charge
- L1e-B street legal electric scooter
- Doesn't need parking space
- Can be charged from a regular outlet

TAKE STIGO WHEREVER YOU GO

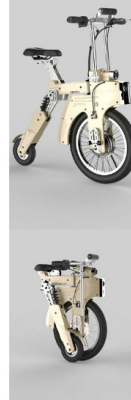

Sitgo is the world's best-folding electric bike.

Sitgo has cool appearance, simple, lightweight and easy to store with 3 simple folding steps, it's the best partner when you travelling around.

Sitgo not just an ordinary electric bicycle, it has USB charging port, which can be used to charge your cell phone, MP3 and other digital equipment at anytime, anywhere.

Sitgo also has a 360-degree rotating cell phone holder, you can riding while listen to the music or check on your navigation, with an unique 12V cigarette lighter charging function, it will keep your SITGO never run out of power, it's your best travel companion.

GET YOUR SITGO

Olgugi, et ma ei ole maailmakuulus disainer, olen ma oma loomingule pühendunud ja loodan, et minu töö leiab austust ja lugupidamist ka teiste silmis.
我知道我并不知名，但我希望我的作品能够得到别人基本的尊重！
