Company Profile - detailed description of the company, information about main products and services (max 1000 characters with spaces)	<p>Bio-fertilizer “ AF ” is obtained using the latest biotechnological methods. For use in environmentally friendly agricultural production. Conforms to environmental standards of the European Union and the United States, certified by their standards.</p> <p>- To obtain environmentally friendly agricultural products without the use of chemical fertilizers.</p>
Company Message How do you want to be introduced: what is special about your products/service, competitive edge, success stories etc	<p>The composition of the bio-fertilizer “AF” includes;</p> <p>Physiologically active substances; amino acids, vitamins, growth promoters, polysaccharides. Organic and mineral compounds.</p> <p>Bio-fertilizer “ AF ” by activating the enzyme systems of the plant leads to an increase in photosynthesis.</p> <p>- Activates biochemical processes in the leaves.</p> <p>- Stimulates plant development.</p> <p>- Increases plant resistance (drought tolerance, etc.)</p> <p>- Increases the size and quality of fruits.</p>
Competitive advantage of the company:	<p>“ AF bio-fertilizer provides environmentally friendly products. In the conditions of Russia, this is especially important, because as a result of the use of ammonium nitrate as a nitrogen fertilizer, the soil biocenosis is severely disturbed, and the presence of a large amount of nitrates in agricultural products contributes to the development of cancer. Of great practical interest is bio-fertilizer “ AF ”, the use of which provides not only high yields, but also the production of environmentally friendly products. Bio-fertilizer has</p>

	been successfully tested in a number of scientific and industrial organizations.
Customer portfolio:	Agricultural sphere
