2019 BRAZILIAN CALENDAR OF EXHIBITIONS AND FAIRS

The Brazilian Calendar of Exhibitions and Fairs is an official publication of the Federal Government, issued very year since 1969 and aimed at publicizing trade events from a number of sectors, which highlight the diversity of the Brazilian economy.

The Calendar is jointly organized by the Department of Trade and Services Policies of the Secretariat of Commerce and Services (DECOS/SCS) of the Ministry of Industry, Foreign Trade, and Services (MDIC) and the Division of Trade Promotion Operations of the Department of Trade Promotion and Investment (DOC/DPR) of the Ministry of Foreign Affairs (MRE). This collaboration was established with the creation of the Permanent Interministerial Working Group, according to Ordinance No. 5 of January 11, 2008.

The printed version of the Brazilian Calendar of Exhibitions and Fairs is distributed free of charge in Portuguese, English, and Spanish to any individual or legal entity interested in receiving a copy, depending on availability. Outside Brazil, the Calendar is distributed by the Trade Promotion Sections (SECOM) of Brazilian Embassies and Consulates.

The electronic version is available for free consultation and download at the sites of the Exhibition and Fair System (www.expofeiras.gov.br) and Invest & Export Brasil (www.investexportbrasil.gov.br). In these websites, any registered events may be consulted through different filters, including "period", "event", "State", "industry", and "scope". You can also obtain contact information of each event's organizers.

This Calendar does not contemplate all companies or entities that promote events, nor all events taking place in the country; there might be other trade events with the same level of excellence in organization, qualification, and reliability. The events listed in this edition have been voluntarily submitted by their organizers. As such, the Federal Government only gives publicity to the events included in the Calendar, and the companies are responsible for holding the business meetings.

Finally, all information listed in this Calendar is the sole and exclusive responsibility of the organizing companies and institutions. Additional information may be obtained on the websites of the events and with their organizers. Addresses and phone numbers of each event's organizers are available at the end of this publication and can also be found at www.expofeiras.gov.br.

Good research!

INTRODUCTION

The Ministry of Industry, Foreign Trade, and Services – MDIC and the Ministry of Foreign Affairs –MRE publish, every year, the Brazilian Calendar of Exhibitions and Fairs, which is an important tool for the consultation and promotion of exhibitions, fairs, business congresses, and other business events held in Brazil.

These business events provide great opportunities for businesspersons to promote their product and/or service and present the trends and news related to the different economic sectors.

In terms of results, the fairs enable the direct trade of the exhibited products and services, the sourcing of new clients and the identification of trading channels. By gathering the different stakeholders (producers, suppliers, sales agents and distributors) of an economic sector's production chain in a single event, the fairs enable the establishment of networks between companies, foster lasting trade relationships and promote the development of new markets.

Year after year, different types of fairs and exhibitions in distinct economic segments multiply in Brazil, boosting the economy and creating jobs.

In this context, the 2019 Brazilian Calendar of Exhibitions and Fairs is a valuable tool for Brazilian and foreign businesspersons and can represent new business opportunities.

Good business to all!
