Detailed description of the company, information about main products and services	Toolstrek is an Integrator company – we integrate solutions and tune processes. We are Atlassian Platinum partner and have partnerships with most of major companies in our market. We have great experience in migration to Cloud, corporate services automation using JSM & Confluence and business process analysis. Our main competencies are: • ITIL process management and automation • Business service desk management including HR&abscence management, purchase management, sales, production backoffice etc. • Migration to Cloud • Corporate portals, knowledge and learning management with Confluence • Classical PMI project management with BigPicture • SAFe Agile with Structure • Performance tuning and security audit for DC instances
Advantages and Innovations What is special about your products/service, competitive edge, etc.	We have a very strong analysis team and have wide expertise in processes. Toolstrek has an all-inbound team and can work with projects without any external help if necessary.
Type of Partnership Considered (potential partner description, concrete companies)	We are looking for IT companies that are performing similar activities to improve their capabilities with our competence or IT companies that want to enlarge their portfolio with our services.
